

Data Intake Report

Name: Abdullah Kasri

Report date: 31/08/2021

Internship Batch: LISUM03

Version: 3.3

Data intake by: [DataGlacier/DataSets \(github.com\)](https://github.com/DataGlacier/DataSets)

Data intake reviewer: Abdullah Kasri

Data storage location:

<https://github.com/AbdullahKasri/Week-2-project.git>

Tabular data details:

Total number of observations	6
Total number of files	8
Total number of features	13
Base format of the file	.CSV
Size of the data	33.4 MB

Note: Replicate same table with file name if you have more than one file.

Proposed Approach:

- Apprehend if there's any type of correlation between consumption (consumer preferences and behaviors) and profitability (whether the decisions made by the customers had an impact on the cash-flow)
- Assuming a relationship is discovered, Execute some statistical analysis to try to make sense of the input data, & finally, come up with some helpful guidelines for future investors.
